

## Bio Jet® Sludge Away

BIO JET Sludge Away is a biological aid designed to increase the oxidation of difficult to degrade organic waste in residential, commercial and municipal applications:

- Residential wastewater systems
- Commercial wastewater systems (restaurants, amusement parks, camp grounds etc.)
- Municipal wastewater systems
- Lift stations/Pump stations
- Lagoons and ponds
- Wastewater holding tanks

**BIO JET** products are manufactured in the United States.

### Sludge Away:

- Is non-hazardous and non-toxic
- Prevents odors and system failures
- Reduces sludge build-up 40-80%
- Reduces TSS (Total Suspended Solids)
- Reduces phosphates
- Improves aerobic and anaerobic digestion
- Improves clarifier settling

A natural organic blend solution of non-toxic bacteria designed to enhance biological activity in wastewater systems.

**Available in 1 gallon jugs, cases containing 6 - 1 gallon jugs and 55 gallon drums**

### Residential/Commercial/Municipal Suggested Dosage Rates:

Plant Capacity (Gallons per day)	Initial Dosage (Each day for 3 days)	Maintenance Dosage (Each day)	Severe Applications (Each day for 5 days)
1,500 or less	0.5 oz.	0.4 oz.	1 oz.
1,500 - 25,000	0.5 - 8 oz.	0.4 - 7 oz.	1 - 16 oz.
25,000 - 50,000	8 - 16 oz.	7 - 13 oz.	16 - 32 oz.
50,000 - 75,000	16 - 24 oz.	13 - 20 oz.	32 - 48 oz.
75,000 - 100,000	24 - 32 oz.	20 - 26 oz.	48 - 64 oz.

\*Additional dosage guidelines can be found on the product label.

Note: BIO JET 7 application rates may vary based on system design, constituents present in effluent waters, loading rates and system retention time.
