

O'BOILET

ALKALINE CLEAN OUT

PRODUCT APPLICATION GUIDE

O'Boilet is a specially formulated alkaline clean out. The product is designed to remove oil and grease commonly present in new heat exchanges, closed loops, condenser and evaporator bundles. After cleaning the system, passivate with a high dosage of corrosion inhibitor.

TYPICAL PROPERTIES

Appearance:	Powder
Odor:	Slight
Color:	Light Brown

Feeding requirements for O'B Boilet L will be determined by your Zinkan representative.

Designed to remove oil and grease commonly present in new boilers, and to clean waterside surfaces of boilers that have become contaminated with oil or grease during service

Safety Precautions

- **WARNING: DO NOT TAKE INTERNALLY.** Highly alkaline. May cause eye and skin irritations or burns. Do not get into eyes, on skin or clothing. Do not inhale fumes. Wear rubber gloves and goggles or face shield, when handling.
- In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. In case of ingestion or contact with eyes, secure immediate medical attention. For more information, please consult the Material Safety Data Sheet.
